Personal Summary

A motivated developer with proficient knowledge in several languages and development tools. My experience as a graduate software engineer has enhanced my abilities in designing, implementing, testing, and maintaining software. I also volunteer at a coding club where I mentor young students.

Work Experience

Graduate Software Engineer

Iress

Jan 2021 - Present

- I worked on the plugin versions (Gmail and Outlook) of our complete and comprehensive financial planning and wealth management software called XPlan.
- Outlook Plugin - Applied ease of use practices to make the UI/UX more efficient. Reducing the number of screens and clicks to perform tasks.
- Gmail Plugin - setup CI/CD pipelines on Buildkite to deploy changes of the plugin to different environments.

Education

BTech in Information Technology (Software Development)

Cape Peninsula University of Technology
2019 - 2021

Diploma in Information Technology (Software Development)

Varsity College
2016 - 2018

Languages and Tools

- | | | |
|--------------|-------------|----------|
| • JavaScript | • PHP | • Git |
| • React | • HTML/CSS | • Heroku |
| • Python | • Bootstrap | |
| • Java | • MySQL | |

Volunteering Experience

- Student mentor at CoderDojo
- I assist in teaching 7-17-year old's the fundamentals of coding (currently remotely)
April 2019 - present
